

SLIME RECIPE

Ingredients

1 Bottles of Elmer's glue (5-6 oz each bottle)- Clear, Glitter Glue, or White Glue.

½ tsp of Borax.

1/2 cup hot water

2 to 3 drops of food coloring, or add paint coloring you want (Note, if your making butter slime, skip this step as the clay will color slime)

Big, wide bowl

Something to Mix with

Directions To Make:

Mix the Borax in the hot water until dissolved.

Empty the bottle of glue into bowl. Slowly mix in the borax water. Stir until its the consistency of slime! Add in coloring option, and then other add in items you want to mix with it.

If the Slime is too sticky add more borax. If its too elastic add in more water.

For Fluffy Slime add 1/2 cup of shaving cream to slime once its done, and mix it in.

For Crunchy Slime add in 1/2 of fish bowl beads to finished slime, and mix through

For Butter slime add one pack of the Daiso Clay to finished slime, and mix in. This will make the slime the color of the clay, as well as giving it that buttery consistency.

For Floam, add 1/2 cup of foam beads to finished slime and mix in.
